My frost philosophy will put no curse on me  
It sets my mind so free, the far reality

Freezing death, my veins work under threat  
My pain's hurt  
My body's working at the full god's speed  
My cold body's shaking  
My cold mind is aching  
But I would die if I now chose to give in

[Chorus:]

I feel no cold, I feel no fear inside my mind  
Now I'm full of energy, electric shock feels in my feet  
I feel the strength, how it will purify my mind  
I live below zero

Energy is reaching my dead skin like drifting  
I'm drowning in the healing of this cold ride  
Ain't it neat, no one can hide or cheat himself from  
Being a survivor suffering coldness of pure

My frost philosophy...

[Chorus + Chorus 2:]

I feel no cold, I feel no fear inside my mind  
Now I'm full of energy, you cannot put a curse on me!  
I feel the strength, how it will purify my mind  
I live below zero

[Chorus + Chorus 2]

I feel no cold inside my mind, I need fresh air to purify  
I feel no fear, it makes me fine, the blood is running  
out of time  
I feel no cold inside my mind, I need fresh air to purify  
I feel no fear, it makes me fine, the blood is running  
out of time
