I'm waiting...

I'll wait till the morning comes

Do the emotion! Do it now!

(I'm watching all that madness but I'm searching for
the real one!)

Do the fast emotion! Let it out!

(I force myself through the noisy crowd to the light
that's flashing really wild!)

I'm waiting...

I'll wait till the morning comes

I'm searching,

searching for Music Force

Do the fast emotion! Do it right!

(I'm standing outside the City mess I'm waiting for the
people...)

Find the motivation! Find it now!

(I'm crawling like heavy worm on the disco floor of real
love)

I'm waiting...

I'll wait till the morning comes

I'm riding...

Riding the endless night

Do the fast emotion! Do it now!

(I'm seeking like a lunatic for appearance of our real
love!)

Find the motivation! Find it now!

(I'm watching all that madness but I'm searching for
the real Bang!!!)
