(Your nature is wild.
I wanna see through you
Let's kiss the world....forget
the depression!)

I surrender... I surrender... again...
I surrender... this land again, ooh
I surrender...

You are so beautiful I want to take
it four...

I am so beautifu... I could whisper
in your ear...

I am so beautiful my mind is waiting
You are so beautiful my mind is
shaking again

I kiss this land!

(This so-called recession, doesn't
really depress anyone...)

Gotta get out, get out of this fever...
I kiss the land!

We want to be free again, so let us
be free again!
