Don't have to be so tense with me, There's no need, I  
feel  
Machinelike I stay calm that I can hear when you talk  
One day, I will get you, out of my mind, for good  
I will, I will walk on, into nowhere, out of sight..  
The slave is here, the file is on, but I don't know how to  
save  
Just pay me to stay away, and the danger will be  
erased  
One day, I will get you, out of my mind, for good  
I will, I will walk on, into nowhere, out of sight..  
One day, I will get you, out of my mind, for good  
I will, I will walk on, into nowhere, out of sight..  
One day, I will get you, out of my mind, for good  
I will, I will walk on, into nowhere, out of lights..
