"We Are With You"

Visit "[We Are With You](#)" on MotoLyrics.com

We are with you... wherever you may be
We are sailing...with you on every sea
We are standing... with you on desert sand
We're your country... together we stand

On the ship thousands of miles from home
you've got your merries to keep you warm
You miss your loved ones, but theres a job you've got
to do
As what your given, you've got a home to come home
to

We are with you...wherever you may be
We are sailing...with you on every sea
We are standing...with you on desert sand
We're your country...together we stand

By yourself out on the lonely desert night
You know back home it's dawns early light
It makes you lonely, one thing you should know
We are with you, wherever you should go

We are with you...wherever you may be
We are sailing...with you on every sea
We are standing...with you on desert sand
We're your country...together we stand
