I may be a dreamer
I won't disagree
but you'll never believe (no you'll never believe)
what has happened to me
it feels like the first time
I know that's it's true
I can't believe my eyes (can't believe my eyes)
can you feel it too?
woah ooh oh
(Chorus)
show me the way to your heart
believe me, tell me you're a part of me (part of me)
show me the way to your heart
open up and let me in (let me in)
tonight is a wonderful start for all the love that was
meant to be (meant to
be)
show me the way to your heart
open up and let me in (open up and let me in)
open up and let me in
I've taken my chances
i'm asking you please
stay by my side, love me tonight, i'm beggin on my
knees
love is the reason, i want you to know
all that i miss is your wonderful kiss,
you gotta let love grow
