You got bad blood mama and I believe you need a shot
You got bad blood baby, I believe you need a shot
Now turn over here mama, let me see what else you
got

I doctors on women, I don't fool around with men
I doctors on women, I don't fool around with men
All right take it easy here mama, while's I stick my
needle in

Lord your ways is so loving and your skin is nice and
soft
Lord your ways is loving and your skin is nice and soft
Lord if you keep on struttin' mama, you gonna make
me break my needle off

Lord my needle is in you baby and you seem to feel all
right
Lord my needle is in you baby and you seem to feel all
right
And when your medicine going to come down, I want
you to hug me tight

Yeh your medicine's come now baby, put your leg
upside the wall
Yeh your medicine's come mama, put your foot upside
the wall
I don't want to waste none of it mama, I want you to
have it all.
