There is no use of loving
Because love has gone out of style
There is no use of loving
Because love has gone out of style
Because ev'ry woman you love
I swear she full of jive

Sometime, I b'lieve my baby love me
People, then again I don't know
Sometime, I b'lieve my baby love me
People, then again I don't know
But to have that kind of feeling
Make you wonder why you wanna go?

There is really no use in loving
But I just can't help myself
There is really no use in loving
But I just can't help myself
But when I get over with this
I'm gonna try not to love nobody else

(piano)

'Ah, play it Willie, Kelly'

'Play it for Mr. Davis, 'cause I'm gonna try to sing it'
'Play it for me'

My baby, my baby
Don't mean me no good at all
My baby, my baby
Don't mean me no good at all
But there is one thing about it
She have really made me fall.
