[Verse]

Oh how can I run from He?
My maker who is hunting me
He has me in His sights and I cannot escape
I won't run any longer
For this love I was made

[Pre-chorus]

Here we are
On fire like a shooting star
It's for sacred love that I was made
We will all be one united in His flame
Without fear and without shame

[Chorus]

Ooh we will not forget
The love that heals our regrets
So let us sing, oooh sing
So let us sing, oooh sing
