

Walter Egan "Fool Moon Fire"

Visit "[Fool Moon Fire](#)" on MotoLyrics.com

I once was a fresh young kid
Nothing could drag me down
I lived and I loved what I did
No one could turn it around
I laughed and I joked with my friends
They don't suspect a thing
Alone by the light of the moon
A change comes over me

I can't stand this lunacy
Feeding my dark desires
Look at the night time sky a fool
It's a full moon fire

Day after a day, it's no use
At night there's something changed
I just got to play it loose
Be cool but it's getting stranged
I know it won't be long before the world can see
Alone in the light of the moon
? I can't compete

I can't stand this lunacy
Feeding my dark desires
Look at the night time sky a fool
It's a full moon fire

When my friend's will know
It's so hard, so hard to say
Sometimes darkness beats, it beats the night of day

How can I stand this lunacy
Feeding my dark desires
Look at the night time sky a fool
It's a full moon fire
