He is a way out of no way
He's the one who turns
My darkness into day
He dispatches the angels
Angels in flight
To assist in every battle
Every battle we fight

He's the one and only God
He is always here
Never ever far
Just a prayer away

So your mountains seem a bit too tall
And your strength just a little too small
All other resources bundled up together
You know they ain't enough in stormy weather

He is able, truly faithful
(Yes He is)
More than capable
Never ever far, oh no
Just a prayer away

He is power
With no limits
If you ask for grace
he will send it
And loose you from the stronghold
That has kept your mind
And give you peace beyond compare
That you could not find

He's the one
One and only God
He is always near
Never ever far, oh no
Just a prayer away

Just a prayer away
Waiting to hear
Always near

oooh oh oh

Just a prayer away
Waiting to hear
Always near
oooh oh oh

Every cry (just a prayer away)

Every moan (waiting to hear)

Every pain (always near)

Every groan (ooh oh oh)

Those sleepless nights (just a prayer away)

No answer in sight (waiting to hear)

He's waiting (always near)

oooh oh oh

Your problems
Up against the wall
Your load is so heavy
You're about to fall
When it gets hard to bear
With a secret prayer
You will find his peace
Waiting there

No mountain, no mountain too tall
No problem, no problem too small

Just a prayer away
Just a prayer away
Just a prayer away

Just a prayer away
Just a prayer away
Just a prayer away

Ooooh
Just a prayer away
Just a prayer away
Just a prayer away

Ooooooh
