"Long Way Down"

Totally nude
What a thing to do
Get shot down by a dancer
She kept tellin' me
She would set me free
I just had to take my chances

Chorus:
Save me I'm fallin'
It's a long way down
Save me she's callin'
It's a long way down

Blinded by the sun
There's nowhere to run
I knew she was bound to find me
Gone without a sound
How far down is down
Now my future's all behind me

Chorus

Weren't we havin' fun?
'Till you got your gun
Now my future's all behind me
Out in Malibu, what a thing to do
