"Nobody But You"

Visit "[Nobody But You](#)" on MotoLyrics.com

When I'm in trouble
And I need someone
Who knows my secret heart

There's nowhere to run baby
But straight to your arms
And you hold me in the dark

Something inside me starts to move
And I know I can put my faith with you

Chorus:
Nobody But you Nobody but you
Nobody but you Nobody but you

It's one of those days
In this lonely world
The signs are hard to see

Just show me the way now
To get back to you girl
That's where I need to be

Something inside me starts to move
And I know I can put my faith with you

Chorus

Somethin' inside me starts to move
And I know I can put my faith with you

Chorus
