Sugar cane blows in the breeze  
Brings back those memories  
Of fireflies and the Fourth Of July  
With you

And maybe it's not the time  
And maybe it's not the place  
Sweet days turn into nights  
With you

Chorus:  
Tonight  
When the stars are in your eyes  
And your dreams become your life  
Maybe someday somewhere  
I will find you  
And take you for a ride  
To the other side  
The other side

At sundown we look to the sky  
Holdin' hands as the rockets fly high  
These are the pirates of my days  
With you

And lately I can't recall  
Where the summer slept and gave  
Tot he fall  
All these memories that I shared  
With you

Chorus
