Why you tell me not to leave  
You tell me not to cry  
And love is just another word  
That keeps me here tonight  
And tears are just another tool  
A weapon when we fight

What have we done here  
And what is the cost  
Of all these feelings  
And love that we've lost

Chorus:  
And it's you  
That keeps me here tonight  
Yeah it's you  
That leads me to the light

Words we've said them all before  
Got nothin' left to say  
And truth is something we both know  
Is something we left far away

What have we done here  
And what is the cost  
Of all these feelings  
And love that we've lost

Chorus

Give me something I can feel  
Something we both know is real  
And make me believe

Chorus
