Summer
Wearing less clothes
Sun-bleached mind won't see the signs
Girlfriend
With a chemical view
Starts to have a crush all over you

Sanctuary, please
Vanilla Kisses
Girls are all chlorine
Adrenaline trippin'

Universe
So very, very strange
Speaks in codes that we don't know
Misfit
Or a victim of the son
Blame me or blame the D.N.A

CHORUS

Crystalline and glassy-eyed
Drunk on her since I was nine
The mortars thick, the walls are high
Drunk on her since I was nine

I know
I know
I know she knows it
I know

CHORUS
