Butterfly, flutter by  
She thinks I'm gone  
Is she high  
maybe I would bring her down

I get used to it

Hopelessly, laughs for me  
I want to hide  
It's a mask, like a song  
Just the good side

Some get by  
Well I, I get used to it  
I will fly  
Well I, I get used to it

While the kids are breeding X4

Drenched in sun, hard to run without the ball  
Want to leave  
Have to stay and save us all

Some get by but I  
I get used to it  
I will fly  
Well I, I get used to it

CHORUS

SOLO

CHORUS
