Sarcasticly she says "Don't kiss me."
I don't understand
Cause it's all much too clear

The things we say are laced with envy
Know no other way to say "I love you."

Play the game and they will show you emptiness and
fear
But I'm on my way
Call my name and I will show you love is on the way
If you call my name

Wish I could go to the past
Warn us of today and how sad it is
I feel so bad for you, my friend
I can feel your pain
But don't run away

CHORUS

So?
