Been living in hell lately
But I like the pain
Fantasy, delusions, lies
Alibis in this game
Can't shake this misery
Can't forget what you did to me
It's so nice to see you again
Now get out of my head

I turned to face myself and found that I was gone
And took my place among the "losers"
Jesus Christ, I've lived your life
A martyr of this fiction
With shame behind this smile there is no point in living

On a quest to feel
All spiritual games
Prying eyes that crucify
Who's holding the reins?
All the things that set me free
Are the thing that I'll never be
Found death a relieving break
From this Masquerade

Full of thoughtless pleasures
Life will carry on
Spare your reputation
Deny who you really are

Took the stars out of my eyes so I can see

CHORUS
