Bite

Bite the road, eat the chair
Talk to the plant, make it your friend
Feel the bottle, watch it pop
Ill to spill, want to fill, pay the bill
About the spout ran some doubt in my route
Chew the vegetable steamer, rock the apple back and forth
Play with the baby, wah wah wah ga ga ga
I like driving my car, it makes me feel cool and calm
Just step on the pedal and move along
Act out emotions, let the world know your happy
Smile at the lens, let the audience know your on top
Use power as your tool
