California

(Dedicated to people wanting the California lifestyle)

California bound, ride that horsie

Chorus

I'm goin' to California

I'm goin' to quit my day job

I'm goin' to California

So that I can be a big slob

Verse

Man it sucks to be a musician these days

No one takes you seriously

Have to write cheesy lyrics to get to the top

And suck some mean, meanâ€¦!

Verse

Lie on the beach

Check out the view

I think I can do that

No one can stop me

Verse

Hey Mr. and Mrs. DJ

I need some airplay

So that I can pay the bills

And live in Beverly Hills

Bridge

Goin' to California

Verse

Where are all these birds coming from?

Check out the headlights on that one

I like it here

California, I'm here to stay
