Flow

Chorus:

You gotta let it flow
You gotta let it grow
You gotta let it show
You gotta let me know
It's just a feelin'
The real thing

Verse:

When you hold me in your arms
When you touch me on the chest
When you kiss me on the mouth
When you put me to the test
When you need me in the night
When you show me you care
I'll be there

Verse:

When you look into my eyes
When you feel inside of me
When you tell me all these lies
When you take me to the skies
When you need me in the night
When you show me you care
I'll be there

Verse:

When you act like a dove
When you give me all your love
When you take me away
When you ask me, you may
When you need me in the night
When you show me you care
I'll be there
I said you gotta let it flow
