Fly

Verse:

Is there anybody out there?  
To feed the body and the soul  
Everybody needs to love you know  
Is there anyone who cares?  
Can you define the sky and mind?  
Everybody needs to love sometime

Verse:

Honey and sugar so fine and sweet  
Everybody needs a little time you see  
Money is funny with the beat of the soul  
Everybody needs to love you know

Chorus:

Imagine salvation, forget about celebrations  
Never have reservations for your damnation  
Just fly away  
Without a dime to your name

Verse:

Is there anyone who sees?  
The seeds, the soil, the flowers and trees  
Fathers and mothers, birds and bees  
Brothers and sisters will be here today  
Get your ticket right away
