Here I Am

(Dedicated to people who stand up for themselves)

Verse

Come on babe

Let me feel the vibe

Tell me that it's gonna be alright

Let yourself, let yourself go

So you said

How's it gonna be

What the hell do you want from me?

Let yourself, let yourself go

Chorus

Here I Am

Holdin' out my heart

Here I Am

Holdin' out my heart for you

Verse

So I feel

We can make it right

Don't have to feel this fight

It's over, let's get over it

Take me back

When love was so fine

You're the one, make it tonight

Take my hand, we can go far
