Phobia

Chorus:

Phobia we don't need it
Phobia we all need love
What are you afraid of?

Verse:

Would they call you racist?
Would they think anything less of you?
Can you deal, tell me can you deal?
Oh we don't need persistent, abnormal fear or dislike?
Of something that you don't even know anything about

Bridge:

Higher and higher
You can fly higher and higher
Phobia
Allow your minds to float freely
Exploring what knowledge has to offer you
Cause everyone shares this planet
