Satan

(Dedicated to evil bosses)

Verse

You asked me to come to your office again
To tell me that I did something incorrect
And I can't understand what your point is
Because your stories come from nowhere
Your life is just a mess but why bother me
Leave me alone you old bag
I may be young but I know what I am saying
You are Satan

Chorus

Do you get it?
Have you heard me?
Are you listening?
Lay off
Get a life!

Verse

You asked me if I was married
And if I had some kids
You asked me what I do after work
And I'm starting to think harassment case
Now I could sue your ass off but I am trying to be
politically correct
I want to move forward
And I have no desire to sleep with you
You are Satan
