Witchcraft

Verse:

I can't believe you put this spell on me
Pretending to read my palm at the party
You're the witch who chose the dark side
Puttin' evil energy on me

Chorus:

Go back to New Orleans
Where mamma and papa control this power
Dark Witch
You will no flower

Verse:

This was the craft that I have seen
As a visionary in the past
My memory is disjointed, people make no sense
Since you built this sorcery fence

Bridge:

It will come to you X3

Verse:

Now I know you're going to be angry that I've written this
song
But sending out this message will do no wrong

Verse:

Without the dark, you cannot have light
You must experience both sides
Dark Witch
Tell me, why did you do this to me?
