EVERY TIME THEY PLAY OUR SONG

(Howard Thomas - Rachel Lane)

© '58 Central Songs

I try to live without you and hold my head up high  
But every time they play our song it makes me cry  
I try to find a new love and let these mem'ries die  
But every time they play our song I have to cry  
I try to go to sleep each night and dream my blues  
away  
But every time I close my eyes the music's starting to  
play  
And then I can't forget you no matter how I try  
Every time they play our song I have to cry  
I try to go to sleep each night...
