(Dick Glasser)

Well, I don't wanna go down the Lonely Street
Where broken hearts and the teardrops meet
Always been right here though I know I was wrong
So think it over baby, don't leave me alone.

No, I don't wanna go down that Lonely Street
Where the blues walk in and the teardrops meet
Yes, think it over baby, don't break my heart
Give me one more chance, we'll make a new start.

--- Instrumental ---

No, I don't wanna go down the Lonely Street
Where the blues walk in and the teardrops meet
You're my only love, it's here I wanna stay
So think it over baby, don't send me away.

'Cause I don't wanna go, no I don't wanna go
Oh I don't wanna go...
