"No Place To Go But Home"

Visit "[No Place To Go But Home](#)" on MotoLyrics.com

They turned out the lights
Friends have said there goodnight
Now there's no place to go but home

I've had a beautiful evening for awhile
I forgot you were gone
Now you're back on my mind how I hate closing time
For there's no place to go but home

No place to go but home
And nobody home when I get there
They turned out the lights
Friends have said their goodnight
Now there's no place to go but home

I drive through this ghost of the city
And I've never felt so alone
It's the world's time to sleep and my time to weep

For there's no place to go but home
For there's no place to go but home
