PEOPLE GOTTA BE LOVING

(Yvonne Devaney)

© '71 Party Time Music

People gotta be loving people gotta be free
People gotta live together in peace harmony
Man can climb a mountain sail an ocean blue
Man can do about anything he sets his mind to do
Man can send an orchid to the moon above
But man's got a long long way to go when it comes to
love
People gotta be loving people gotta be free...
In this world of trouble this world with love and hate
There's always room for little more love and a whole lot
less of fate
People gotta get together this evil to erase
The world all together was made for good and
common race
People gotta be loving people gotta be free...
(People gotta be loving people gotta be loving
People gotta be loving people gotta be free
People gotta live together in peace harmony)
Yeah listen people (people gotta be loving)
Well I'm saying (people gotta be free)
Live together (people gotta be loving) in peace
harmony
