You've promised me love that would never die  
That promise you've made was only a lie  
Now after you've gone all alone  
I'll pine for all that I've got is a worried mind

When I was down, you've just left me there  
I needed you so, oh but you didn't care  
You've found a new love and a home so fine  
But all that I've got is a worried mind

(You've promised me love)  
You've promised me love  
(That would never die)  
That would never die  
(That promise you've made)  
That promise you've made

(Was only a lie)  
Was only a lie  
Now after you've gone all alone  
I'll pine for all that I've got is a worried mind  
(Is a worried mind)
