They warned me not to fall in love with you said you
would only break my heart
Your kind you just can never change no you can't make
a heel toe the mark
You can't stop time from rollin' on you can't keep a man
from goin' wrong
You can't change the daylight to dark and you can't
make a heel toe the mark
[dobro - ac.guitar]
A leopard can never change its spots big tiger would
never change its stripes
A hound dog would never change its bark and you
can't make a heel toe the mark
You can't stop time...
And you can't make a heel toe the mark
