(ParsonsBators)

bite on the hands that feed you  
one day they'll turn on you  
never trust those with power  
they'll take you for a fool  
take what you want and use it  
ya gotta make it work for you  
this time round i've had it  
ya don't tell me what to do  
take them and break them  
make them feel it too  
or soon you will face it  
when they all spit on you  
a flower one day withers  
the end ain't never far  
time will wait for no one  
no matter who you are  
look at the way they treat you  
a pawn in a powder game  
propaganda living  
and you're the one to blame
