A girl consumed by fire

We all know her desire

From the plans that she has made

I had her on a promise

Immerse me in your splendour

All the plans that I have made

This is the one

This is the one

This is the one

This is the one

This is the one

She's waited for

This is the one

This is the one

This is the one

Oh this is the one

This is the one

She's waited for

I'd like to leave the country

For a month of Sundays

Burn the town where I was born

If only she'd believe me

Bellona belladonna

Burn me out or bring me home

And this is the one

This is the one

This is the one

This is the one

This is the one

This is the one

She's waited for

This is the one

This is the one

This is the one

Oh this is the one

This is the one

I've waited for

Oh this is the one

Oh this is the one

This is the one

I've waited for

This is the one

Oh this is the one

Oh this is the one

This is the one

I've waited for

This is the one

This is the one

This is the one

Oh this is the one

This is the one

I've waited for

It may go right

It may go wrong

This is the one

This is the one

She's waited for

And this is the one

This is the one

This is the one

This is the one

She's waited for

And this is the one

Oh this is the one

Ah this is the one

This is the one

I've waited for
