[Verse I:]

It's been a minute
We been talking on the phone
Hit me on my two way turning me on
And I'm a bout to lose my mind
Say you wanna meet me
Baby it's been way too long
Time to quit playing
Let's get it on
I'm a show you, I'm for-real, for-real

[Pre Chorus:]

I'm gonna make you want me
I'm gonna make you come see me, never gonna want
no-one but me
I'm gonna make you come see me, never gonna want
no-one but me
I'm gonna make you mine

[Chorus:]

Make you wanna stay baby, I'm gonna
Make you wanna stay baby, I'm gonna
Make you wanna stay baby
Make you, Make you

[Verse II]

Baby we been waitin, But I ain't gonna wait no more
Boy cuz what cha feel you can't ignore
(Baby you can't ignore)
Don't even deny it
We wasted too much time
I'm a bout to make you see
I'm a bout to make you mine
