Your mouth is full of shit
and you "spread the word" like hell
your message board tourette syndrome
prooves that you are nothing, son!

everything you claim to be
is fake and a fucking joke to me
you sold your past on ebay
and now everyone else is "gay", ...

...but you!?

every further phrase you shoot out
is as pointless as the last
people like you...sooner or later
they will all be laid to rest

we take back what is ours
and make you shut your breath
no one really cares about
what you guys have to say!
