

War "Love Come Down"

Visit "[Love Come Down](#)" on MotoLyrics.com

Have you ever dreamed of being free from the things
that haunt your memory?
Have you ever locked yourself inside to find that there
is nowhere left to hide?

Oh, oh

CHORUS:

Waiting here where the waters meet,
The voices of a world in need,
All singing, "Love come down,"
Standing here in the burning streets,
The orphans cry and the widows weep,
Singing, "Love come down"

Have you ever seen a kingdom fall and wondered why
you'd like to have it all?
Have you ever loved and lose the fight to the one you
thought would save your life?

CHORUS

Have you ever been afraid to die, afraid of all the
things you fight?
And if you lost the will to live, there is hope that's real

CHORUS x2
