I'll never stop  
Cause I need you  
And I'll never gonna give you up  
I'll never stop  
Cause I need you  
And I'll never gonna give you up

You say I'm always on you mind  
You say we'll never do that time  
We'll make our dreams reality  
Well I'm so sorry, so so sorry  
Told us we will make a life  
Our love was made of fakin lies  
It's time to take control right now  
Let me, let me show you how.

In your mind and in your soul  
Let your feelings take control  
In your mind and in your soul  
Let your feelings take control

Together we can touch the sky  
Together we can reach no...  
I see, I see it in you eyes  
Together we can make it right  
I'm talking about you and me  
The one dream our love could be  
It's time to take control right now  
Let me, let me show you how.

I'll never stop
