

## Wargasm "Engine"

Visit "[Engine](#)" on MotoLyrics.com

On a mission many a year  
Single minded nothing to fear  
I'd like to make one thing so clear  
You don't want to get caught between the gears

This engine never dies  
Overloaded this thing nearly flies  
All those stories you thought they were lies  
Overlook it and you're in for a big surprise

I feel the anger, feed the reaction  
I feel the anger, feeding my engine  
I know just what to do  
I'll aim my engine right at you

It's my machine and it runs on pain  
You don't drive it, it drives you insane  
Don't really know what I hope to gain  
Tears me apart and it puts me back together again

Living dream, where I've been  
My machine, it's a trip like you've never seen

I feel the anger, feed the reaction  
I feel the anger, feeding my engine  
I know just what to do  
I'll aim my engine right at you
