I say this world is slowly winding down  
I say we burn it all  
Right down to the ground  
Deconstruct, it's time  
Reconstruct in time  
I see this road is finally reaching the end  
I see tearing it down and starting again

Through years of growing like a cancer  
And clinging like a curse  
We finally found the answer  
And it couldn't be much worse  
We're on a downward spiral  
We'll ride it to the ground  
It's time to go  
It's time to start the tear down

I know it's time to learn how to disappear  
I know that we were never meant to be here

Through years of growing like a cancer  
And clinging like a curse  
We finally found the answer  
And it couldn't be much worse  
We're on a downward spiral  
We'll ride it to the ground  
It's time to go  
It's time to start the tear down

Chaos would do this tired old world some good  
Eons she'll rebuild without us like she should

Through years of growing like a cancer  
And clinging like a curse  
We finally found the answer  
And it couldn't be much worse  
We're on a downward spiral  
We'll ride it to the ground  
It's time to go  
It's time to start the tear down
