[Intro]

Ah-ha!

[Chorus x2- Jadakiss]

[Wow] What you so mad at now?

Go get yourself a drink lets all get down

Roll somethin, smoke somethin lets blow this pound

Naw somethin jump off we gonna hold us down

[Verse 1- Jadakiss]

Uh me and honey on the dance floor just flexin

Till the neck on my white T start stretchin

Liquor comin outta our paws and we sweatin

But that ain't slowin us down, we still steppin

Her gear is strong, her hair is long, her feet is small

And she smoke weed and all, so we gonna pop us a bottle

And blow a good splif, VIP is crowded but they all look stiff

I'm well connected, I got wolves over there, and niggaz that

Act like pitbulls over here, ya I'm just doin my 1 2 and shit

She's shakin it, doin that St. Louis shit with her back in it
So I put my bones in it, the rollz go prezzy, got the pink stones in it

Why you want drama with me, I ain't gonna blast you
Before I put the money on ya head I'ma ask you nigga

[Chorus x2- Jadakiss]

[Wow] What you so mad at now?

Go get yourself a drink lets all get down

Roll somethin, smoke somethin lets blow this pound

Naw somethin jump off we gonna hold us down

[Verse 2- Jadakiss]

Yo yo yo, I'm everything controversial, underground gangsta rap

Slash commercial ya but still all it takes is a long dutch

For me to get your wifey up out of a warm dutch

As far as the funeral, you got it, its on us cuz niggaz

ain't crazy
They just armed us uh, so let me get another round
Now Hypno and Clico will sit a brother down
Haze'll have you feelin like you in another town
Then its time for the gangstas so get the rubbers now
K I two of them swirled things one more drink and ya
boy
Might be doin the earl thing, ma its me, you and
whoever ya girl bring
Meet me in the back, I'm outside the pearl thing
I got the trate pound hooked on my waist
When they mention my name around other rappers,
look in they face and say

[Chorus x2- Jadakiss]

[Wow] What you so mad at now?
Go get yourself a drink lets all get down
Roll somethin, smoke somethin lets blow this pound
Naw somethin jump off we gonna hold us down

[Verse 3- Jadakiss]

Can't knock a nigga that didnt make it, if you try
Far as me though, my spot is celitifed so when I hit my
number
I'ma hit it high and when I'm dead and gone, they
gonna say I did it live
Cuz I done been too nice for way too long
They can't hold me back I'm way too strong
Double R D-Block that's what it is and that's what its
gonna be
We gettin it on I just wanna know

[Outro x2]

What you so mad at now
Let's all get down
Let's blow this pound
We gon' hold it down
