[music: breitenbach-eilen-zur heide/lyrics: eilen,  
arranged by WARHEAD]

[A song specifically against the catholic church of the  
middle ages,  
[asking them to celebrate the riches of their loot - even  
nowadays.]

Holy church it's you we hail  
Feed us on our holy trail  
Give us gold and holy food  
Jesus Christ we praise our loot

Could be words in mind and head  
Wishing harmless people dead  
Did you act on God's command  
"cleaning" all unholy land

Celebrate, celebrate  
Celebrate, celebrate your loot
