(Marcus Hummon/Annie Roboff/Steve Wariner)

I've been recording I love you  
Then rewinding the tape  
I've been hiding my colors from you  
In a box of paints  
I've been saving my poetry about you  
On a written page  
Now it's time to come on out, no I  
can't wait

Chorus:

It's high time you knew  
Everything you mean to me  
What I feel for you  
Coming up from underneath soul deep  
I am breaking through this shy little boy  
Inside of me  
It's high time you knew (you saw)  
Everything you mean to me

I can see you in the morning  
Gentle in my arms  
Or fillin' jars with lightning bugs  
Chasing shooting stars!  
Clinging to me like a promise  
Around me like a ring  
I can see it so clearly my heart soars and sings

Bridge:

Through my eyes you'll be so surprised Chorus:
