All my friends
Say I should leave you alone
You got a heart like a stone
And a wanderin' eye

And I know that they're right
I can make up my mind
Not to see you again
But you move through my dreams like the wind
It's no good to pretend
It won't happen again
Cause it'll happen again

Some fools never learn
Play with the fire
And you're gonna get burned
It's only love
When you're loved in return
Some fools never learn
Some fools never learn

And Baby I tried
But I'm just not that strong
Guess I knew all along
But that's not enough
I was falling in love

And you don't know it
But I came over tonight
There was somebody's car parked outside
Damn my eyes
Damn this heart of mine
I drove off into the night

Some fools never learn
Play with the fire
And you're gonna get burned
It's only love
When your loved in return

Some fools never learn
Some fools never learn

Somewhere in the city tonight
There's a girl and she's lonely like me
She'll be easy to see
And naturally
She'll have that look in her eye
She'll be feeling that way
I see it all plain as day
Oh I'll never be
What she wants me to be
Oh but lucky for me

Some fools never learn
Play with the fire
And you're gonna get burned
It's only love
When your loved in return
Some fools never learn Some fools never learn Some
fools never learn
