There's an air raid look on his face
There's a bullet loose in his veins
He's gonna stumble,
he's gonna fall
Here comes the quake head,
he's learnin' to crawl

Kiss me I'm beautiful
Kiss me I want it all
I am the black dog coming
I am the black dog howling
I am the black dog coming
I am the black dog howling out

Now will he come, now will he survive
Now will he come come come down alive
He's comin' naked,
he's wearin' a sign
Don't look at me I was just passin' by

Kiss me I'm beautiful
Kiss me I want it all
I am the black dog coming
I am the black dog howling
I am the black dog coming
I am the black dog howling out

He's got his wings hidden under his skin
Ten thousand feet
and he feels like a king
Too many riots too many mistakes
Too many things to celebrate

Kiss me I'm beautiful
Kiss me I want it all
I am the black dog coming
I am the black dog howling
I am the black dog coming
I am the black dog howling out
