White boy picking up low life God's  
Rippin' up, rippin' up dirty old scars  
White men come in grand parades  
Celebratin' heroes day

We're white We're programmed  
We're white We're programmed  
White trash piece of white trash

We're all happy we're all look-alikes  
We're all happy we're all parasites  
Down in the well of the human race  
We're all uniformed and garbage faced

We're white We're programmed  
We're white We're programmed  
White trash piece of white trash

I'm from the land of milk and clean  
Where nothing never ever gets mean  
I grew up in silly schools  
I grew up to be a silly old fool

I'm white I'm programmed  
I'm white I'm programmed  
I'm white I'm programmed  
I'm white I'm programmed  
Piece of white trash  
White trash
