This ones for the audience can't you see,
and i'm runnin runnin round an apple tree,
from capital grounds to the smallest town,
we had issues with control of the crown,

they're trying to set our moral provisions,
by reconfiguring our sexual decisions,
this wont last long we must take action,
against the grain, graaaaaaaain,

male or female, i dont care.
is that the problem, or everyones fear?
but why do we get so caught up in this
lame shelter, audio vision,
x2 (we're talkin vison)

a man in office has power to off this,
taking away something so precious,
saying it's not so sacred to us,
but its sacred the less, none the less,

theyre taking away something from our song,
not allowing the truth to be told,
i cant beleive this society is so unnaccepting,
interupting,

[chorus x2]
