"Blue Kentucky Boy"

Yes I left you for the bright lights of the town searching
for a magic world of joy
But when a million city lights go down they're shining
down on a blue Kentucky boy
Oh how I'm missing you and long to kiss you
To hold you now would bring me so much joy
I miss the fields of blue grass web with you
And the one who's blue for this blue Kentucky boy
[ac.guitar]
I'll soon be on my way back home to you for here my
heart is like a broken toy
I know the moon will shine the whole night through
To light the way for your blue Kentucky boy
Oh how I'm missing you...
