It's another world when I'm with you  
Roses everywhere blue skies up above everybody is in  
love  
It's another world when I'm with you and that's where I  
wanna be  
Never a day goes by when I'm blue there's no tears in  
my eyes when I'm with you  
It's another world when I'm with you  
Nights are made for love days are never long nothing  
nothing can go wrong  
It's another world when I'm with you and that's where I  
wanna be  
[ guitar ]  
Never a day goes by when I'm blue there's no tears in  
my eyes when I'm with you  
It's another world when I'm with you  
And this here right now let me hold you close love you  
know just grows and grows  
It's another world when I'm with you and that's where I  
wanna be
